Summary:

This report informs Council of additional funds that have been provided as part of the existing Roads To Recovery (RTR) program, and identifies that these funds may be considered towards the upgrade of The Boulevard Stage 2.

Background:

The existing RTR program has a five (5) year duration, and commenced in 2014/2015, (the programme is currently entering the second year). Each year the funding provided to the City of Palmerston is $269,190, with the exception that in this current year Council shall receive a double payment bringing the pre-existing available funding to $1,615,140.

The Federal Government recently identified that a new fuel excise charge would apply in order to provide additional funding to contribute to the infrastructure investment programme through supporting maintenance of the nation’s local road network. On 30 June 2015 the City of Palmerston was informed that it would receive an additional $853,234. This funding will be provided as follows:

- $231,646 in 2015/2016
- $621,588 in 2016/2017

This is in addition to the existing funding bringing the total RTR funding for the five (5) year programme to $2,468,376.

The conditions attached to the funding have not changed.

General:

Previously the annual RTR funded project has been used for the capital works resealing programme.

An opportunity exists to direct the current funding to other roads upgrade projects such as The Boulevard Stage 2.
Financial Implications:
Refer to General section of this report.

Policy / Legislation:

Programme requirements

The programme procedures (previously known as guidelines) have been updated. They are available on both IMS and the Department’s public website at

Now would be a good time to print them and the Funding Conditions, see

and familiarise yourself with them. A new version of the IMS manual will be out soon.

The Legislation underpinning the Roads to Recovery Programme is the National Land Transport Act 2014. A link to this legislation and the programme signage requirements may be found at http://investment.infrastructure.gov.au/publications/administration/index.aspx

Quarterly Reporting

The web site will be open from 1 to 31 July for the entry of quarterly expenditure reports. The next payment will be made in mid-August on the basis of the following formula:

\[
\text{Payment} = \text{cumulative expenditure (R2R component) by council on Roads to Recovery projects from the inception of the programme on 1 July 2014 until 30 June 2015} \\
\text{plus} \text{ projected expenditure (R2R component) to 30 September 2015} \\
\text{less total R2R payments already made to council by the Commonwealth.}
\]

Please note that, all reports (annual and quarterly) are now required to be done on an accrual basis.

Please update your work schedule, including the addition of new projects, before you do your expenditure report so that funding for new projects can be provided in the next payment. Information entered on projects must be written in language that the general public can understand, not in engineering jargon.
**Bridges Renewal Programme (BRP)**

The Minister for Infrastructure and Regional Development launched round two of the Bridges Renewal Programme (BRP) at the 2015 National General Assembly of Local Government on 15 June 2015. Proposals will be called for from 1 July 2015, and the closing date is 31 August 2015.

The Australian Government has committed $300 million through to 2018-19 for the BRP. The objectives of the BRP are to contribute to the productivity of road bridges serving local communities, and facilitate higher productivity vehicle access.

Round two is open to Local Governments only, with up to $100 million in funding available. The Australian Government will contribute a maximum of 50% of the total project cost. Councils are encouraged to discuss the programme with local communities, relevant industry stakeholders, Regional Development Australia committees and state road agencies early in the process.

Details on the programme parameters, how to apply and funding conditions are contained in the Programme Criteria and Proposal Form. Proposal forms will be available from the open date of 1 July 2015.

Fuel excise change a boost for local roads

COUNCILS across Australia will receive an extra $1.105 billion over the next two years from the Australian Government for local road and street works following the reintroduction of Consumer Price Index-linked fuel excise.

Deputy Prime Minister and Minister for Infrastructure and Regional Development Warren Truss said every cent of the extra $23 billion revenue raised through the excise over the next decade and beyond will be invested in roads infrastructure.

“The Government has reached agreement with the Labor Party for the passage of the fuel excise indexation legislation, an important element in our Budget repair plan,” Mr Truss said.

“As part of our ongoing commitment to road infrastructure, we will provide an additional $1.105 billion specifically for the Roads to Recovery Programme over the next two years.

“This popular roads programme was introduced by the Howard/Anderson Government. Since coming to government, we have expanded it and made it permanent to give local government and their communities the surety they need that local roads will be future-proofed.

“What today’s decision means is that local governments across Australia will receive an extra $300 million in 2015-16 under Roads to Recovery, on top of the $700 million they are already receiving – a $1 billion cash injection in local roads over the next 12 months.

“In 2016-17, local government will receive an extra $805 million in addition to the $350 million they were already scheduled to receive under Roads to Recovery – $1.155 billion next financial year.

“Since the programme began in early 2001, councils have used the funding provided to repair and upgrade more than 45,000 local streets and road locations, making it the largest investment in Australia's local roads ever undertaken.

“Today we are ensuring many thousands more will be built and repaired.”

Tying the indexation of the fuel excise to changes in inflation will provide the Australian Government with a predictable and guaranteed source of revenue to build the infrastructure Australia needs.

“For a motorist who consumes 50 litres of fuel each week, the impact amounts to just 40 cents, an impact that will be minimised through congestion-busting road infrastructure,” Mr Truss said.
“Importantly, the Roads to Recovery Programme allows councils to directly fund local road projects based on local needs, with local knowledge playing a major role in the programme’s success.”

The fuel excise will increase twice a year in February and August, in line with movements of the Consumer Price Index.

The extra $1.105 billion being pumped into Roads to Recovery will be paid to councils under the usual formula as part of their regular quarterly payments without any requirement for councils to match the extra money.
