RECOMMENDATION

1. THAT Council receives Report Number 8/1155.

2. THAT the consultation period during which time comments on the City Centre Improvement Special Rate can be made remain open until such time as the closure of consultation on the Municipal Plan 2017-2022.

3. THAT Council set a proposed City Centre Improvement Special Rate for inclusion in its draft Municipal Plan 2017-2022.

4. THAT Report Number 8/1155 with the exception of Attachment D be brought back into the open session.
General:
Consultation on the Special City Centre Improvement Special Rate commenced on 30 March 2017 with announcements being placed on Council’s website and social media page. Attachment A.

An advertisement was placed in the NT News on 30 March and 13 April 2017. Attachment B.

Letters to the City Centre land owners were sent out on 29 March 2017. 8 owners responded to Council’s request for comment by the close off date of 24 April 2017.

A summary of issues/comments raised by respondents is shown in Attachment C. Written responses from respondents are contained in Attachment D.

Financial Implications:
A special rate imposed on the properties within the City Centre can be struck under section 156 of the Local Government Act. It has been proposed that the rate would be applied to carpark shortfalls currently applying to each property. The shortfalls have been calculated as the difference between the number of bays provided by each property less the number of bays generated by each property in accordance with the generation rates of the NT Planning Scheme. No waiving of bays would be granted for items like cross utilisation or public transport convenience.

Special rates
(1) A council may at any time declare rates for a particular purpose (special rates).
(2) If special rates are imposed for the benefit of a particular part of the area, they may be limited to allotments within the relevant part of the area.
(3) A declaration under this section must:
   (a) state the purpose for which the special rates are imposed; and
   (b) state the amount to be raised; and
   (c) state the basis of the special rates; and
   (d) state whether the special rates are imposed on rateable property generally, or on rateable property within a particular part of the area and, if they are limited to a particular part of the area, identify the relevant part.

Public Consultation - City Centre Improvement Levy

Council is considering the implementation of a special annual levy for City Centre properties as a means of raising the revenue required to fund improvements in the City Centre, including carparking improvements.

Council recognises that City Centre users also have a responsibility to contribute to carparking costs. In conjunction with the City Centre Improvement Levy hourly and daily parking bay charges will be introduced. Council seeks to determine the balance between annual levy incomes and parking bay charges that will provide a sustainable income stream for the ongoing improvement of its City Centre and the provision of CBD carparking.

Council proposes to enact a levy on property owners within the City Centre, which equitably allocates the costs associated with providing parking and other improvements aimed at supporting the many City Centre businesses.

It is a method that will result in adequate funding being identified for the provision and planning of future car parking, and for the ongoing development of the City Centre public space, to the benefit of all stakeholders, and one that allows for longer term payment rather than an up-front commitment.

The City Centre Improvement Levy will be responsive to changes in the community's use of vehicles over time and can decline in annual value, should commuters and shoppers choose more sustainable forms of transport, such as walking, riding, or bussing to the City Centre.

This special levy will apply only to the properties in Palmerston City Centre, not suburban residential, commercial and industrial properties.

At this time Council has not resolved what the levy rate will be. Council has indicated that, if levied, the charge will be based on the value of the car park shortfall at the property. Car park shortfall will be calculated as the difference between the number of bays provided at the property and the number of bays required by the property in accordance with the generation rates given in Table 6.5.1 columns 1 and 2 of the NT Planning Scheme.

Council is seeking feedback on how the proposed City Centre Improvement Levy may impact the community, and whether it is supported as a means of funding improvements in the City Centre.

Written submissions addressed to the Chief Executive Officer can be sent via the following methods:

- Post: PO Box 1, Palmerston NT 0830
- Delivered in person to Council’s Office - cnr University Ave & Chung Wah Toe

Public Consultation City Centre Improvement Levy

Council is considering the implementation of a special annual levy for City Centre properties as a means of raising the revenue required to fund improvements in the City Centre; including carparking improvements.

Council recognises that City Centre users also have a responsibility to contribute to carparking costs. In conjunction with the City Centre Improvement Levy hourly and daily parking bay charges will be introduced. Council seeks to determine the balance between annual levy incomes and parking bay charges that will provide a sustainable income stream for the ongoing improvement of its City Centre and the provision of CBD carparking.

Council proposes to enact a levy on property owners within the City Centre, which equitably allocates the costs associated with providing parking and other improvements aimed at supporting the many City Centre businesses.

It is a method that will result in adequate funding being identified for the provision and planning of future car parking, and for the ongoing development of the City Centre public space, to the benefit of all stakeholders, and one that allows for longer term payment rather than an up-front commitment.

The City Centre Improvement Levy will be responsive to changes in the community's use of vehicles over time and can decline in annual value, should commuters and shoppers choose more sustainable forms of transport, such as walking, riding, or bussing to the City Centre.

This special levy will apply only to the properties in Palmerston City Centre, not suburban residential, commercial and industrial properties.

This initiative is identified in Council’s City Centre Parking Strategy, which can be viewed at www.palmerston.nt.gov.au.

City of Palmerston Mayor Ian Abbott assures the community they have the opportunity to provide feedback about city planning and service provision.

“Council is consulting with all City Centre business owners and property owners. We then determine the impact that an annual levy may have on City Centre based businesses, residents and development owners”, he said.

At this time Council has not resolved what the levy rate will be. Council has indicated that, if levied, the charge will be based on the value of the car park shortfall at the property. Car park shortfall will be calculated as the difference between the number of bays provided at the property and the number of bays required by the property in accordance with the generation rates given in Table 6.5.1 columns 1 and 2 of the NT Planning Scheme.

Council is seeking feedback on how the proposed City Centre Improvement Levy may impact the community, and whether it is supported as a means of funding improvements in the City Centre.

<tbody>
<tr>
<td>1</td>
<td>Charging for parking in the city centre is inappropriate. Vehicle users will not pay the charge. The weather makes it difficult to cycle and busses are too intermittent to use.</td>
<td>The City Centre special rate is only applied to land owners. It is not a direct charge to car users.</td>
</tr>
<tr>
<td>2</td>
<td>We own two lots and we net the carparking shortfall off across the two lots. Will this be allowed to continue?</td>
<td>If the carparking consent between each lot is registered on the titles then carparking can be netted off across multiple lots.</td>
</tr>
<tr>
<td>3</td>
<td>Property owners will simply pass the charges on to clients and customers as part of their business overheads.</td>
<td>Not all property owners will have charges. Passing the charges on to tenants will be a business decision based on market competition.</td>
</tr>
<tr>
<td>4</td>
<td>The proposed levy for property owners seems at odds with current planning practices discouraging vehicles in the CBD areas and encouraging walkable CBD's by penalising motorists. Why wouldn't CoP instead plan and implement from within their current resources a walkable, cycle friendly CBD with additional bus lanes within the CBD rather than letting the public demand drive it?</td>
<td>The special rate is not only for the provision of carparking but also for other improvements to the City Centre. The special rate offers Council flexibility to adjust the annual charge in response to its annual financial needs. Should parking demand reduce due to Council's initiatives then resources can be directed to other City Centre Master Plan activities like cycle paths and bus needs or the special rate can be reduced. Council is seeking to establish a user pay system within the City Centre. Infrastructure demand will be met by parking charges and a land owner special rate.</td>
</tr>
<tr>
<td>5</td>
<td>I would rather see the CoP invest their energies into concentrating their time and resources into the same level of planning and upkeep in the Palmerston suburbs - especially focussing on the roads, paths and parks. On first glance they are simply ... neglected.</td>
<td>At the 2015 customer satisfaction survey the community returned a satisfaction level of 111.82 for Recreation and 106.65 for Assets and Infrastructure. A score of 100 indicates that the community is “satisfied” with the performance of Council. City Planning, which includes the implementation of the City Centre Master Plan, scored 80.22</td>
</tr>
<tr>
<td>6</td>
<td>The planning authority at the time of construction of my building actively discouraged the provision of on-site carparking. ... We object to the impact of an additional rate and tax burden.</td>
<td>The special rate is being applied in accordance with the Local Government Act not the Planning Act. While the carparking generation rates model from the NTPS have been adopted at this time it is only used to proportion the liability for city centre improvements to the owners of city centre properties.</td>
</tr>
<tr>
<td>7</td>
<td>We note that the CoP's own strategy quotes a number of authorities, the preeminent one being Shoup, a distinguished Research Professor of Urban Planning. Shoup's seminal work &quot;THE High Cost of Free Parking&quot; recommends that cities should charge fair market prices for on-street parking and use the meter revenue to finance public services in the metered neighbourhoods and discourage off-street parking on development sites. The CoP parking strategy seems to completely ignore this recommendation.</td>
<td>Council recognised in adopting its parking strategy that both users and land owners of the City Centre gain a benefit from the area and as such should contribute to the areas ongoing development and costs. The special rate, while based on a parking shortfall model, is not solely intended to fund carparking. Its intent is to financially assist in rolling out the improvement identified in the City Centre Master Plan.</td>

<td>The consultation period has been too short</td>
<td>This is the first round of consultation. If council resolves to include a special rate in its Municipal Plan 2017-2022 then a further formal consultation period of 3 weeks will be associated with the Municipal Plan prior to a plan being adopted. Furthermore, any comments received between now and when the Municipal Plan consultation ends can be included in the officer's report on the Municipal Plan consultation.</td>

(Chair)
Application – Remission of Interest 107440

FROM: Director of Corporate and Community Services
REPORT NUMBER: 8/0849
MEETING DATE: 5 April 2016

Summary:
Application for remission of interest for the 2015/2016 financial year in regards to assessment 107440.

In line with policy FIN17, application for remission of interest is required to be presented to council for consideration.

Council is asked to consider the remission of interest.

Background:
The owner of this residential property is claiming financial hardship and has received financial counselling from Somerville. Somerville has lodged an application on the ratepayer’s behalf for a rates concession on the grounds of hardship.

The owner had successfully applied and been granted a rates concession but the original application from Somerville only requested the remission of interest for three months until the ratepayers have secured employment. After advising Somerville that the concession had expired, Somerville have asked to extend the concession and have advised that the ratepayers situation hasn’t improved and they continue to experience unemployment and health issues.

General:
The ratepayer has owned this property since 2011 and during this time rates instalments have been intermittently overdue. The owners had successfully maintained a payment arrangement under the previous hardship concession of $25 per week and wishes for this arrangement to continue.

The previous rates concession expired on 29 February 2016 and it is suggested to grant a further rate concession from that date.
If the ratepayer does not maintain the payment plan, one written warning will be sent. If the ratepayer fails a second time to maintain the pay agreement the interest will immediately be reinstated and the assessment will go back to debt collection.

**Financial Implications:**

Interest remission calculated at 18% pa from 1 March 2016 until 30 June 2016 equates to approximately $157.

**Policy Legislation:**

Pursuant to Part 11.7 Section 163 of the Local Government Act.

\[
\text{Part 11.7 Interest on unpaid rates} \\
\text{163 Remission of interest} \\
\text{A council may remit interest wholly or in part.}
\]

**RECOMMENDATION**

1. THAT Council receives Report Number 8/0849.

2. THAT Council approves the remission of interest for the period 1 March 2016 to 30 June 2016 under financial hardship policy FIN17.

   4.1 Responsibility
   4.1 We are committed to corporate and social responsibility, the sustainability of Council assets and services, and the effective planning and reporting of Council performance to the community

Summary:
Application for remission of interest for the 2015/2016 financial year in regards to assessment 100114.

In line with policy FIN17, application for remission of interest is required to be presented to council for consideration.

Council is asked to consider the remission of interest.

Background:
The owner of this residential property is claiming financial hardship and has received financial counselling from Anglicare NT. Anglicare has lodged an application on the ratepayer’s behalf for a rates concession on the grounds of hardship.

The owner had successfully applied and been granted a rates concession but the original application from Anglicare only requested the remission of interest until 31 March 2016, until the ratepayer had sold property. After advising Anglicare that the concession had expired, Anglicare have asked to extend the concession and have advised that the ratepayers situation hasn’t changed. The property hasn’t sold as anticipated and the owner continues to experience hardship.

General:
The ratepayer has owned this property since 2004 and rates instalments have been overdue since 2013. The owner has successfully maintained a payment arrangement under the previous hardship concession of $150 per fortnight and wishes for this arrangement to continue.

The previous rates concession expired on 31 March 2016 and it is suggested that we reinstate this rates concession from that date. Anglicare provided notice to us on 4 April 2016 that the ratepayer wishes to continue on the concession.
If the ratepayer does not maintain the payment plan, one written warning will be sent. If the ratepayer fails a second time to maintain the pay agreement the interest will immediately be reinstated and the assessment will go back to debt collection.

**Financial Implications:**

Interest remission calculated at 18% pa from 1 April 2016 until 30 June 2016 equates to approximately $166.

**Policy Legislation:**

Pursuant to Part 11.7 Section 163 of the Local Government Act.

ITEM NO. 18.2 Application – Rates Concession for Assessment 102017

FROM: Director of Corporate and Community Services
REPORT NUMBER: 8/0861
MEETING DATE: 19 April 2016

Summary:
Application for remission of interest for the 2015/2016 financial year in regards to assessment number 102017.

In line with policy FIN17, application for remission of interest is required to be presented to council for consideration.

Council is asked to consider the remission of interest.

Background:
The owner of assessment 102017 is claiming financial hardship and has received financial counselling from Somerville, who have lodged an application on the ratepayer’s behalf for a rates concession on the grounds of hardship.

The ratepayer has expressed concern in regards to rates which has fallen into arrears, due to the financial hardship faced as a result of unemployment. The ratepayer wishes to hold interest to allow further time to reduce the arrears. The ratepayer is actively seeking employment to enable them to maintain their repayment plan.

The owner appears committed to repaying their debt and the application for hardship concession for remission of interest would be from date of application being 5 April 2016 to the end of financial year with a repayment plan of $25 per fortnight.

General:
The ratepayer has owned the property since 2008 and rates have only recently fallen overdue since third instalment. The owner had been keeping up with his instalments up until January. Somerville has advised that the ratepayer can commence a repayment plan of $25 per fortnight. The ratepayer has requested a remission of interest from the date of application, which in this case is 5 April 2016 to 30 June 2016.
If the ratepayers do not maintain the payment plan, one written warning will be sent. If the ratepayer fails a second time to maintain the pay agreement the interest will immediately be reinstated and the assessment will go back to debt collection.

**Financial Implications:**

Interest remission calculated at 18% pa from 5 April 2016 until 30 June 2016 equates to approximately $41.

**Policy Legislation:**

Pursuant to the Local Government Act 2014.

**Part 11.7 Interest on unpaid rates**

163 Remission of interest

A council may remit interest wholly or in part.

**Part 11.8 Rate concessions**

164 Rate concessions

1. A **rate concession** is one or more of the following:
   (a) a waiver in whole or part of rates or a component of rates;
   (b) a deferment in whole or part of an obligation to pay rates or a component of rates.

2. A council may grant a rate concession unconditionally or on conditions determined by the council.

3. If a council grants a conditional rate concession under this Part, and the ratepayer fails to comply with a condition, the council may by notice to the ratepayer:
   (a) withdraw the concession; and
   (b) require the ratepayer to pay an amount, on or before a date specified in the notice, to neutralise any benefit to the ratepayer of the rate concession.

**Rate concession to alleviate financial hardship**

1. A council may grant a rate concession to alleviate financial hardship.

2. A rate concession may be granted on application by a person who establishes to the council's satisfaction that the person will suffer financial hardship if the concession is not granted.

**RECOMMENDATION**

1. THAT Council receives Report Number 8/0861.
2. THAT Council approves the remission of interest for the period 5 April 2016 to 30 June 2016 for assessment 102017 under the conditions of financial hardship policy FIN17.
